

SCIENTIFIC SYMPOSIUM

Kickoff collaboration between UCLA Computational Medicine and Amazon AWS

February 1st 2019
8:15 am – 5:30 pm
Mong Auditorium
Engineering VI Bldg
UCLA

We are hosting a one day scientific symposium which will feature a series of talks highlighting some of the most exciting science at UCLA and beyond.

- 9:15 Kelsey Martin • UCLA**
Making Memories Last: Neurons, Genes and Synapses
- 10:00 Eran Halperin • UCLA**
Recovering hidden genomic signal in the analysis of heterogenous tissues
- 11:15 Leonid Kruglyak • UCLA**
Massively parallel genome engineering with CRISPR
- 12:00 Lunch & Poster session**
- 2:00 Jennifer Listgarten • UC Berkeley**
Machine learning for protein engineering
- 2:45 Jonathan Flint • UCLA**
Genetics of Depression
- 4:00 Ben Raphael • Princeton University**
Clonal evolution in tumors and metastases
- 4:45 Sriram Sankararaman • UCLA**
Inferring genetic ancestry & its role in evolution & disease

Breakfast (8:15) & Lunch (12:00) will be served

RSVP [here](#) • Poster submission [here](#)

Sponsored by UCLA Computational Medicine & AWS
